

Please do not displace KLOVE Radio from the air. It is integral part of my life personally - and to listen to call ins, a valuable part of many others lives as well. The ministers at KLOVE provide insightful, encouraging messages and programming that have had significant impact on my life and emotional well being. It is the only radio station that I listen to and I would be lost without it. Every day people from all over the U.S. call in to describe how KLOVE has touched their lives in a positive way. KLOVE is supported by donations from listeners only which should attest to its importance. Please do not displace KLOVE from the airways. I will not listen to its replacement, no matter what it is.
